TIMBER JOINERY
BUILDERS' SUPPLY MERCHANTS

PYRMONT, SYDNEY, N.S.W.

IMPORTED & COLONIAL TIMBERS. JOINERY WORK AND
EVERY DESCRIPTION OF BUILDING MATERIAL SUPPLIED.

PYRMONT, SYDNEY, April, 1924.

TO OUR VALUED CUSTOMERS

Who have so largely given us their support and confidence in the past, and to those whose patronage we hope to secure, we have much pleasure in submitting this ninth edition of our ILLUSTRATED CATALOGUE of Manufactured Woodwork. For convenience of Architects, Builders, etc., we have reduced the size very considerably to previous issues so that this Catalogue can be carried in the Pocket. In this edition, it will be noticed that all numbers and several of the designs have been altered from our previous issue of 1904. This has been done with a view to keeping up with the progress of modern building requirements, and to depart from the old-fashioned Stock Lines, many of which are now out of date and quite obsolete. For convenience the several lines of Mouldings carried in stock have been marked "stock," and other patterns are milled specially to order.

Our Timber Yards, Storage and Seasoning Sheds, also Joinery Works range amongst the largest in the Commonwealth, covering a total area of some thirty acres.

The Saw Milling Plant is the most up-to-date in the State comprising, Log, Band Saws, Re-Saws and Milling Machinery, the best the world produces.

Our JOINERY WORKS are also fitted throughout with the latest types of English and American Machinery, and we are therefore in a position to carry out orders entrusted to us in a manner both creditable to ourselves and satisfactory to our clients. We have also installed a most complete and up-to-date Door Manufacturing Plant, as a result of which the importation of Doors has practically ceased, and more employment found for our own mechanics. We especially solicit your support in this connection.

Our stocks comprise TIMBER, JOINERY WORK, MOULDINGS, SKIRTINGS, ARCHITRAVES, TURNERY, MANTELPIECES, GLASS, CEMENT, GALVANISED IRON (Best Brands only), IRONMONGERY, and General Builders' Supplies of every description.

We are also extensive Manufacturers of DETAILED JOINERY and WOODWORK GENERALLY; our long experience and personal supervision enabling us to offer unequalled facilities in this department.

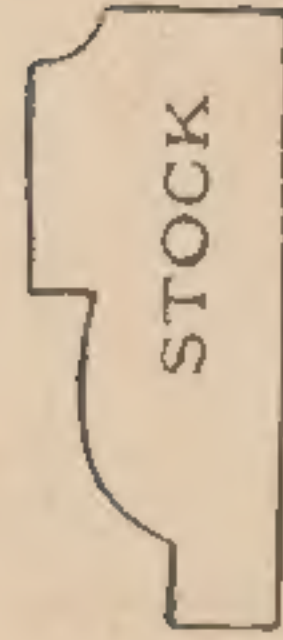

We also stock and supply Weatherboard Cottages in a great variety of designs, suitable for local use, and for export to the Islands of the Tropics, all framed up, numbered and forwarded in sections ready for erection.

When ordering from this CATALOGUE, kindly give the NUMBER of the article required, also the exact size and quantity, and complete FORWARDING INSTRUCTIONS. ORDERS, however small, will receive the most careful attention and prompt despatch.

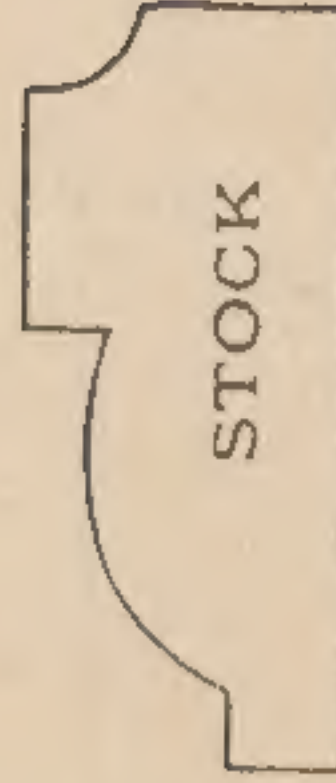

For PRICES of stock lines of TIMBER, MOULDINGS, DOORS, SASHES, MANTELS, TURNERY, IRON, etc., etc., see our MONTHLY PRICE LIST, posted free on application. SPECIAL QUOTATIONS GIVEN for other lines on receipt of particulars.

A. C. SAXTON & SONS, LIMITED.
